## Subsection III Remuneration Structure

### 69. Description of the Remuneration Policy of the Board of Directors and Supervisory Boards as Set Out in Article 2 of Law No. 28/2009 of 19 June

The Remuneration Committee was of the opinion that there was no justification for major changes to the basic principles that have been the core of the Corporate Bodies Remuneration Policy, which should continue having in attention the current legal and recommendatory framework, as well as the organizational model adopted by the Board of Directors, pursuant to the election of the respective members for the 2013-2015 period.

With respect to the organization of the Board of Directors, the Remuneration Committee has especially taken into account the following characteristics:

- The existence of a Chief Executive Officer with delegated duties regarding the day-to-day management of the Company, as well as of a Director or Directors to whom the Board have entrusted or may entrust special duties;
- The participation of Non-Executive Directors in Specialised Committees, who are therefore called to devote increased time to Company's affairs.

Considering the said organisational model the Remuneration Committee understands that there are no grounds justifying any major changes in the principles that have been adopted as to the Corporate Bodies Remuneration Policy.

The remuneration of Directors with executive duties continues to comprise a fixed and a variable component, that together guarantee a more competitive remuneration in the market and which also serves as a motivating element for high individual and collective performance, allowing ambitious targets for accelerated growth and the appropriate shareholders remuneration to be set and achieved.

Annually, by proposal of the Chairman of the Board of Directors, the variable component is fixed by the Remuneration Committee, taking into account the expected contribution of Executive Directors to results, shareholder value creation (EVA), evolution of share prices, the work carried out during the preceding financial year, the degree of achievement of the projects integrated on the Group's Strategic Scorecard, as well as the criteria applied in the attribution of variable remuneration to the remaining Managers.

The Remuneration Policy continues seeking to reward the Executive Directors for the sustained performance of the Company in the long-term, and the safeguarding of the interests of the company and shareholders within this period of time. For this reason, the variable component takes into account the contribution of the Executive Directors to the conduct of business through: 1) the achievement of EVA objectives set out in the Medium and Long-Term Plan approved by the Board of Directors; 2) the development of the share price; 3) the implementation of a series of projects across the Group's Companies, which, having been identified by the Board of Directors as essential to ensure future competitiveness, have a time scale that may exceed one calendar year, being the Executive Directors responsible for each compliance stage, in the scope of their duties.

The variable remuneration is, as already noted, dependent on predetermined criteria to be fixed at the start of each year by the Remuneration Committee, following a proposal from the Chairman of the Board of Directors, which take into consideration the Company's real growth, the wealth created for shareholders, and long-term sustainability.

Bearing in mind the contribution of the several countries and business areas where the Group operates to total turnover and consolidated results, the Remuneration Committee considers adequate that the payment of the fixed and variable components of remuneration to Directors with executive duties be split amongst the Company and its subsidiary companies where such Directors are also members of the management body, according with a ratio to be determined by this Committee.

As regards the deferral of part of the variable component of the remuneration, the Remuneration Committee conducted a study on the subject in 2011 without reaching a conclusion about the advantages or inconveniences of its adoption, considering that the manner in which the remuneration of the Executive Directors is structured is adequate and ensures full alignment of their interests with those of the Company in the long-term. For the same reason, the Remuneration Committee deems unnecessary to determine the maximum potential amount, in aggregate and/or individual terms of remuneration to be paid to members of Corporate Bodies. Furthermore, the Committee considers that the Remuneration Policy of the Company is aligned with the remuneration practices of its counterparts within the PSI-20, bearing in mind the characteristics of the Company.

The Company did not enter into any contracts with its Directors which mitigate the risk inherent to the remuneration variability set by the Company, nor is the same aware that any such contracts have been entered into between its Directors and third parties.

The absence of a deferral period for the variable component makes it unnecessary to have mechanisms to prevent the execution of contracts by Executive Directors that subvert the rationale of variable remuneration.

The remuneration of the members of the Audit Committee as well as the remuneration of Directors with non-executive duties continues to comprise a fixed component only.

With respect to Directors with non-executive duties who are part of Specialised Committees (whether or not exclusively composed of Directors), the Remuneration Committee considered it appropriate to continue the attribution of meeting fees, bearing in mind that the duties performed within those Committees demand additional availability from the respective member Directors.

Similarly, with respect to Non-Executive Directors who take part of supervisory bodies of the Company's subsidiaries, bearing in mind that such duties arise from the exercise of their functions as Directors, the Remuneration Committee considered appropriate to attribute to them meeting fees.

As established by the Remuneration Committee in 2010, life and health insurance *fringe benefits* continued for Directors with executive duties.

The Statutory Auditor is remunerated in accordance with the auditing services agreement signed with the Jerónimo Martins Group, which covers almost all its subsidiaries. This remuneration shall be in line with market practices.

The Retirement Pension Plan for Executive Directors was approved at the 2005 Annual General Meeting, which is described in point 76.

This Remuneration Policy was subject to discussion at the Annual General Shareholders' Meeting held last year.

### **70. Information on How Remuneration is Structured so as To Enable the Aligning of the Interests of the Members of the Board of Directors With the Company's Long-Term Interests And How It Is Based on the Performance Assessment and How It Discourages Excessive Risk Taking**

As results from the Remuneration Policy described in point 69, remuneration is structured in a way that allows alignment between the interests of the Board Members with the long term interests of the Company.

The existence of fixed and variable components of remuneration, the fact that the variable remuneration is fixed depending on the verification of several objective factors, e.g., the real growth of the Company, the wealth created for shareholders, the implementation of projects across the Group's Companies which ensure the future competitiveness of businesses, and long-term sustainability, cause that management's evaluation is made taking into attention the interests of the Company and its shareholders not only in the short term, but also in the middle and long-term.

It is a Defined Contribution Pension Plan, in which the value of the contribution is fixed in advance – the percentage of the monthly deduction for the Fund is currently 17.5% – the value of the benefits varying depending on the earnings obtained. The Remuneration Committee defines the contribution rate of the Company and the initial contribution.

Plan participants, as defined in the respective regulation, include the Executive Directors of the Company. In the specific case of Executive Directors in office at the time of the 2005 General Meeting, those who opted for the current Pension Plan would forego eligibility for the Alternative Pension Plan, by way of expressly and irrevocably waiving it.

The retirement date coincides with the day itself or the first day of the month following the month in which the Participant reaches normal retirement age, as established into the General Social Security Scheme. A Participant will be considered to be in a state of total and permanent invalidity if recognized as such by the Portuguese Social Security.

The pensionable salary is the gross monthly basic salary multiplied by 14 and divided by 12. To this fixed monthly amount is added, at the end of each calendar year, a variable amount comprising all the amounts received as variable remuneration.

Additionally, concerning Directors who were in office at the date of the said 2005 General Meeting, the complementary pension or retirement system regime applies, and under the terms of the respective Regulation, Directors have the right to a Complementary Pension at retirement age, cumulatively, when they: i. are over 60 years old; ii. have performed executive functions; and iii. have performed the role of a Director for more than 10 years. This supplement was established in the 1996 Annual General Shareholders' Meeting and only those Directors that have not opted for the Retirement Pension Plan mentioned above may benefit from this supplement.
